Things to consider:

- We check your budget thoroughly so do some research for the estimated costs near your school (the school websites are the best indicator of costs)
- A Fulbright grant is not intended to cover all costs related to your study/research
- Living costs (room and board) should reflect a “modest, but livable” rate. Some adjustments to standard of living may be necessary

IMPORTANT:

- Fill in all fields that are applicable. Write N/A if not applicable
- Please use the exchange rate on page 1 set by Fulbright Denmark. If you have comments to this, use the space below. Do not change the exchange rate as we use this to compare applications. We are aware of the fact that the current exchange rate may be different, and we will take that into consideration when reviewing the application
- Round up expenses and income to the nearest 10 (ex. \$2476 → \$2480)
- Do not include grants/scholarship you have not received as “Income”. Use the box on page 2 to inform us about these instead
- Handwritten budgets will NOT be considered
- If you are in any doubt when filling out the budget (or application) please contact Fulbright to ensure that it is correct, PRIOR to submitting your application
- You are required to inform Fulbright if you receive any other scholarships for the time you are applying for

Please use the following space to explain your budget if needed:
